Cineplex Memmingen

Memmingen

This cinema complex is easily recognizable from a distance due to the colors and light contours of the façade. The bright and cheerful atmosphere is created through the use of corresponding colors and lighting, changing colors and warm tones. Energy-efficient, durable and maintenance-friendly elements help to permanently reduce costs. The lighting design, furniture and sound system offer easily transformable options for events, such as film premiers and awards and additional or birthday celebrations.

PROJECT FACTS

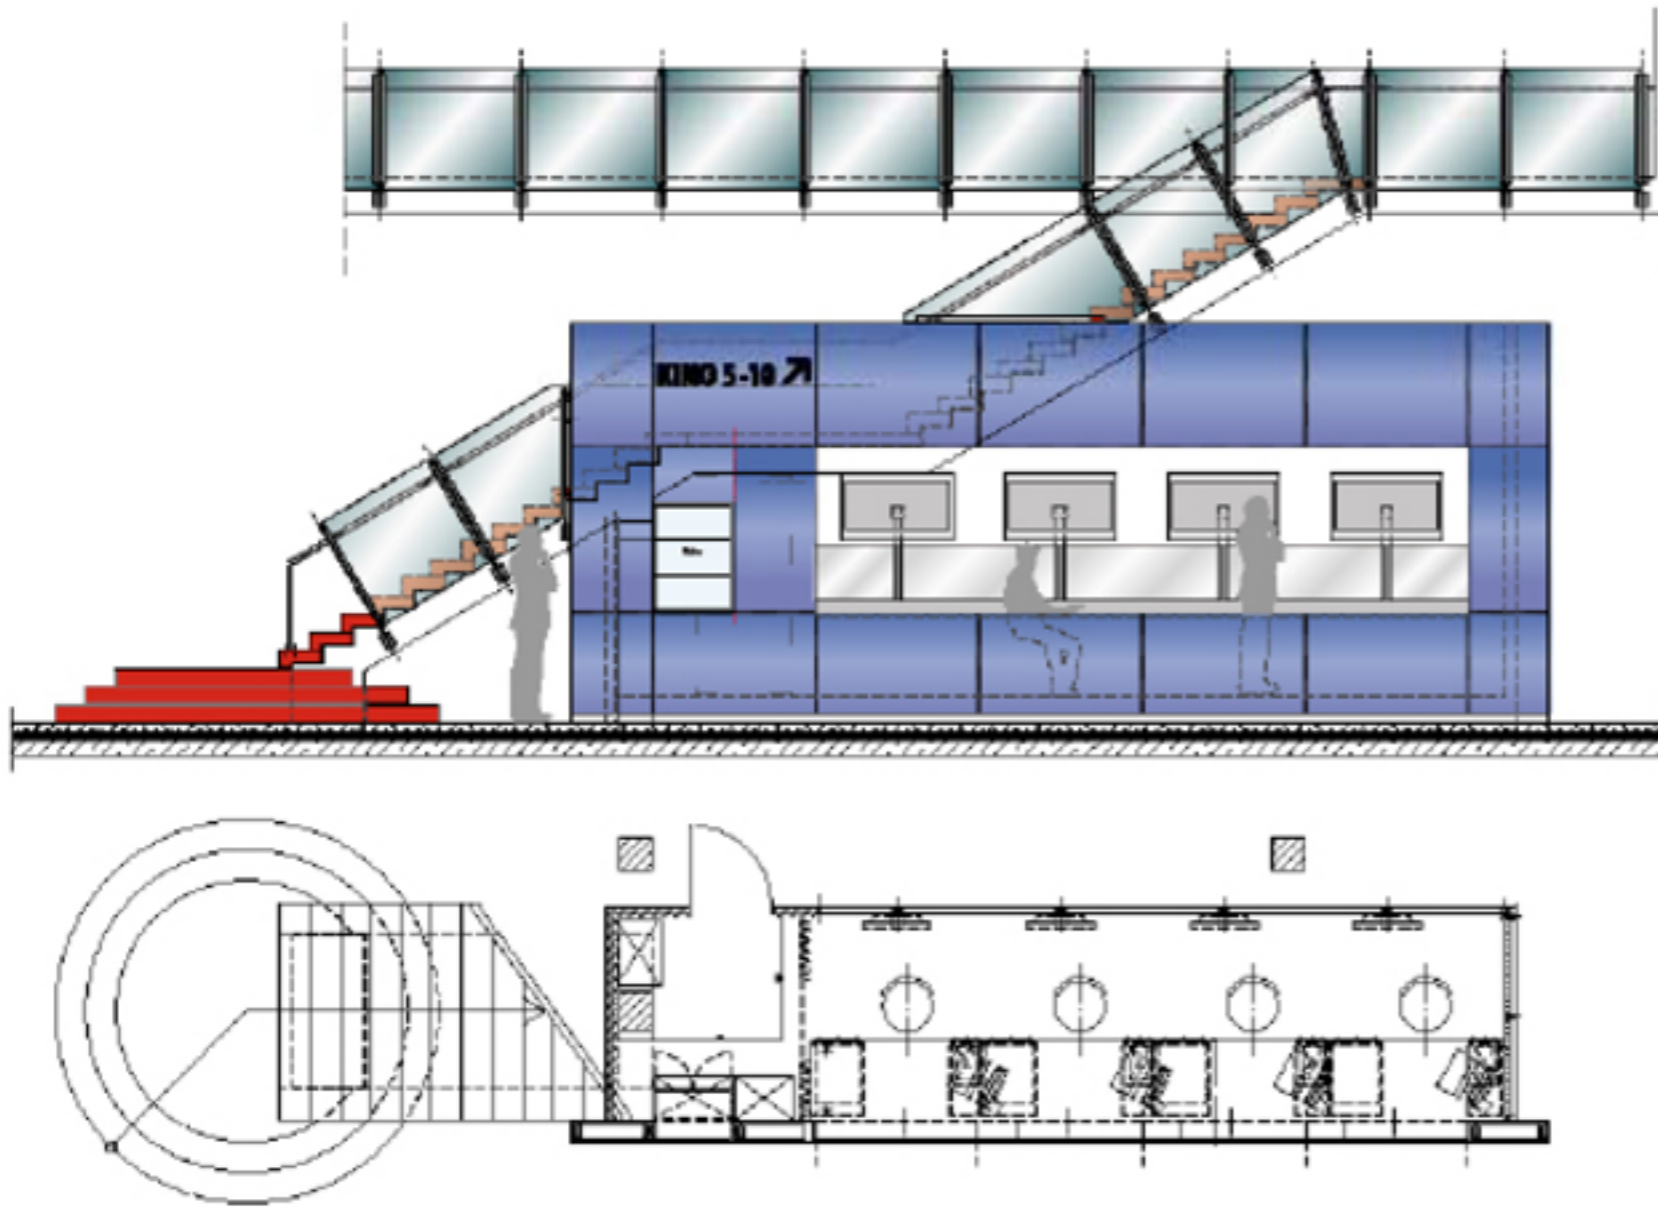

Address: Fraunhoferstraße 21, 87700 Memmingen, Deutschland. **Client:** FTB Rusch. **Completion:** 2007. **Gross floor area:** 750 m². **Building type:** cinema. **Lighting technique:** LEDs with dimmer light controls, down-lights, pendants over counters. **Light function:** Bright, friendly atmosphere. **Ecological aspects of lighting:** energy-efficient and durable lights, further energy saving through dimmable lights.
